

INSPECT X

DIGITISING INSPECTIONS

Brain Industries (Pty) Ltd

INTRODUCING INSPECT X

**THE QR-CODE
DRIVEN DIGITAL
INSPECTION SYSTEM!**

REVOLUTIONIZE INSPECTIONS IN ALL AREAS

Compliance is critical in hazardous areas, according to the SANS Code Periodic Inspection for Hazardous Areas Equipment, reference to SANS 60079-17:2014.

InspectX is a web-based inspection platform designed for use across multiple operational areas within hazardous and industrial environments.

It enables seamless, structured inspections that can be conducted on a daily, weekly, monthly, or on a periodic basis — including both visual and detailed assessments.

The system supports inspections across the following key disciplines:

- HazLoc
- Maintenance (Conveyor, Cooling Towers, Boiler Houses, Structures, etc.)
- Earthing
- Mechanical
- Electrical & Instrumentation
- MCC's & DB Boards
- Access Control for Vehicles

WHY INSPECT X?

Eliminate Paperwork

Secure, and clear digital records and reporting

Boost Efficiency

Faster inspections with less downtime and boosted productivity

Management Reporting

Real-time reporting for management control & feedback

Ensure Compliance

Ensure compliance with visual, close and detailed inspections

Photo Verification & QR Codes

On-site verification and instant equipment information retrieval

Preventative Maintenance

Scheduling of repairs preventing breakdowns

Document Control

Uploading of certificates and Dossier Pack information

SAP Integration

Currently in Progress

Multiple Users in Field

Multiple Devices can be used simultaneously to capture inspections

*"Lose the paperwork
and switch to a fast,
QR-code-driven digital
inspection system!"*

 **INSPECT X**

CHANGE WHAT YOU KNOW ABOUT INSPECTIONS

Ensuring compliance and safety in hazardous environments demands a smarter, more efficient approach to inspections. Inspect X is the solution, transforming outdated, paper-based processes into a streamlined, digital-first system designed for accuracy, accountability, and ease of use.

With QR-code-enabled inspections, Inspect X eliminates the hassle of manual record-keeping, allowing users to instantly retrieve equipment histories and conduct thorough assessments with real-time tracking. Automated data logging and cloud storage ensure that every inspection is securely recorded, providing a clear audit trail that meets even the strictest regulatory standards.

OUTCOMES OF AN INSPECTION

PASS

REPAIRED

DEFECT

Every inspection conducted through InspectX results in one of three possible outcomes: **Pass**, **Repaired**, or **Defect**.

A **Pass** indicates that all criteria have been met, and the equipment is compliant.

A **Repaired** status occurs when defected equipment has been repaired and re-inspected and passed the inspection.

A **Defect** highlights non-compliance or an issue requiring attention, enabling managers to take immediate corrective action.

These clear, structured outcomes ensure that inspections are efficient, actionable, and fully documented for compliance tracking.

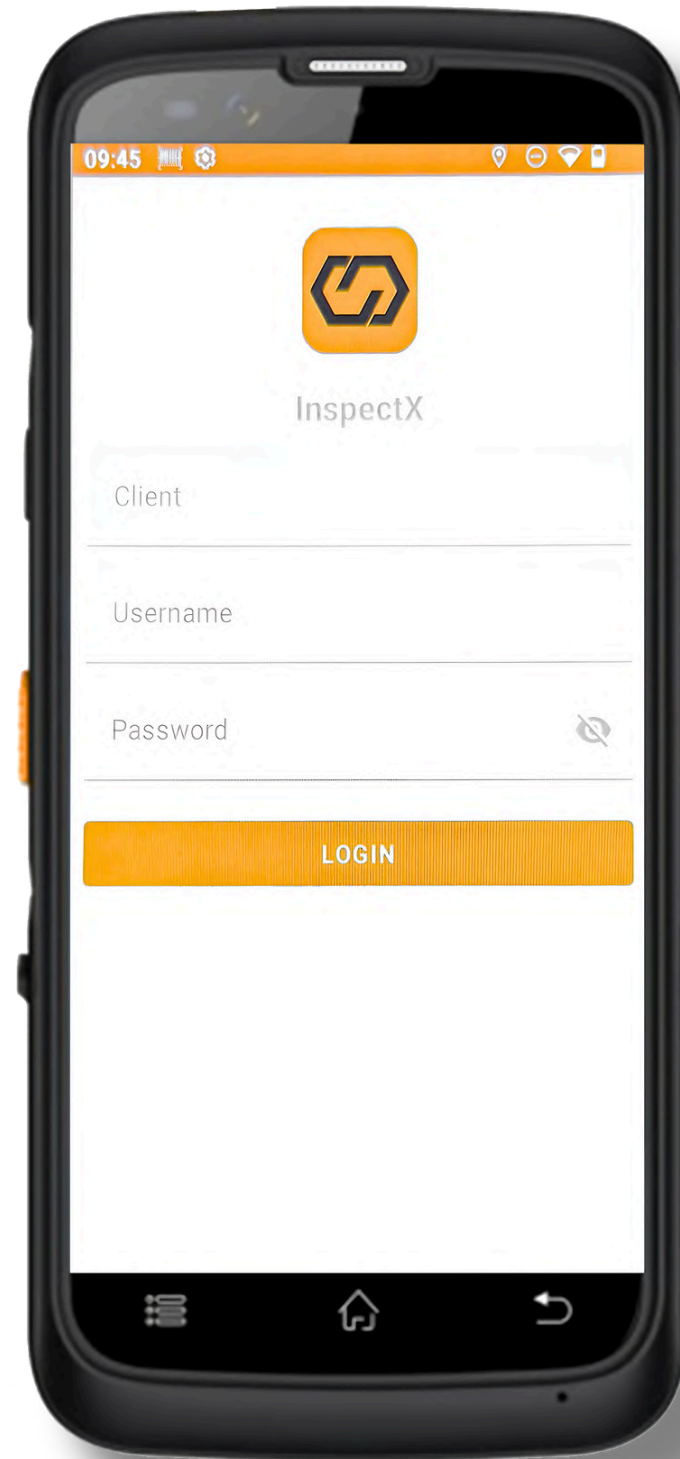

HOW TO USE THE INSPECT X APP

STEP 1

LAUNCH APP & LOG IN

THIS CAN BE DONE ON YOUR QR
CODE SCANNING DEVICE

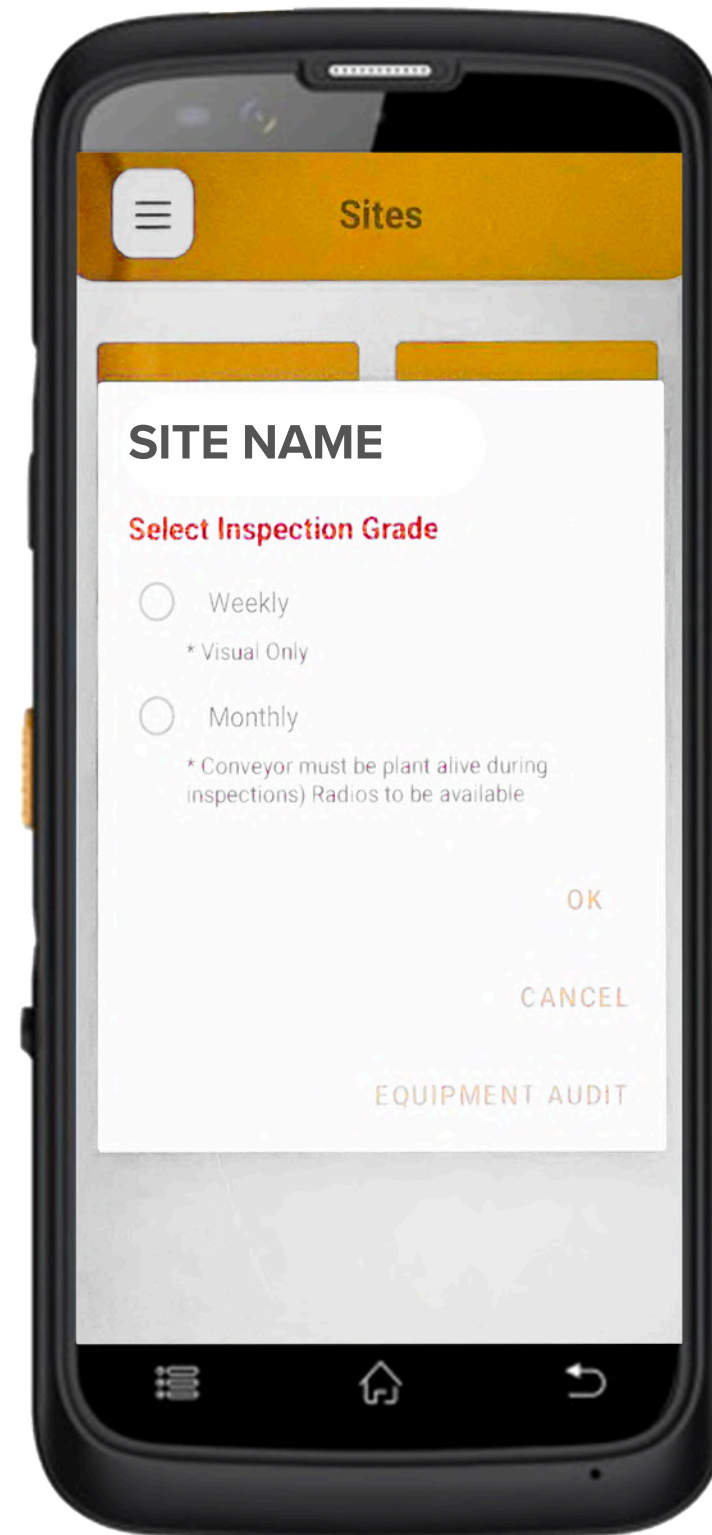

- 01** Open InspectX on your designated QR code scanning device
- 02** Enter your credentials to access your business profile
- 03** Verify your competency level of user

(Competent users can conduct inspections, while non-competent users have read-only access)

STEP 2

SELECT YOUR SITE & INSPECTION TYPE

DIVE DEEPER INTO CUSTOMISATION
BY CHOOSING YOUR MANAGED SITE
AND INSPECTION TYPE

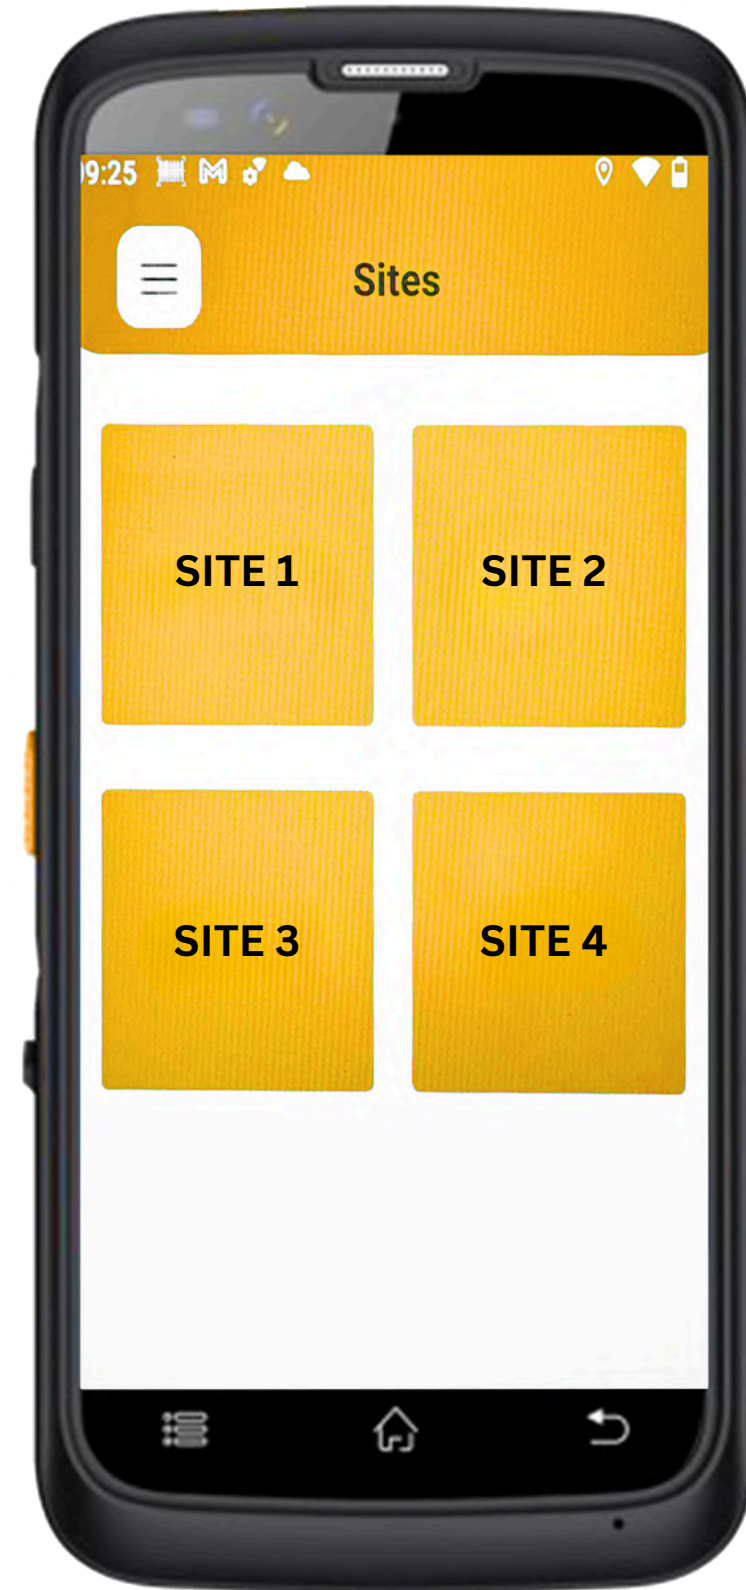

- 01 Choose the site where the inspection will take place.
- 02 Pick the type of inspection:
 - Visual, Close, or Detailed.
 - Weekly or Monthly
- 03 View past inspections for reference before proceeding.

STEP 3

NAVIGATE TO THE INSPECTION ZONE

REVIEW INSPECTION HISTORY WITH EASE,
ALL CHOSEN TYPES ON ONE PAGE

- 01** Select the specific area or zone within the site that requires inspection.
- 02** Review historical inspection data for better decision-making.

STEP 4

START A NEW INSPECTION

BEGIN YOUR INSPECTION WITH THE
CLICK OF A BUTTON

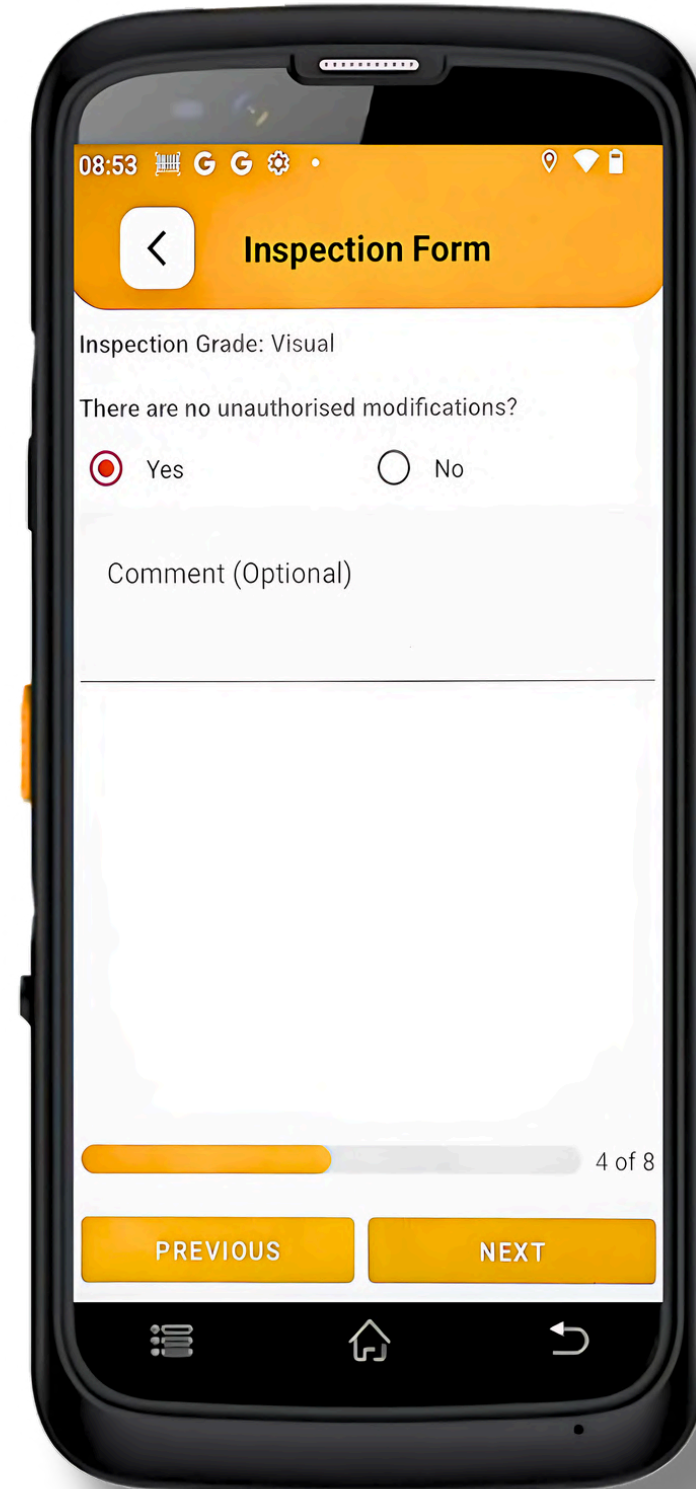

- 01** Tap the Forms button and select the + icon to begin.
- 02** Walk up to the equipment and scan its unique QR code.
- 03** Take a mandatory on-site photo for verification.

STEP 5

FOLLOW THE DIGITAL INSPECTION PROCESS

ANSWER THE PROMPTS ON YOUR
DEVICE, FOLLOW THE GUIDES, MARK
THE ISSUES AND ADD YOUR NOTES

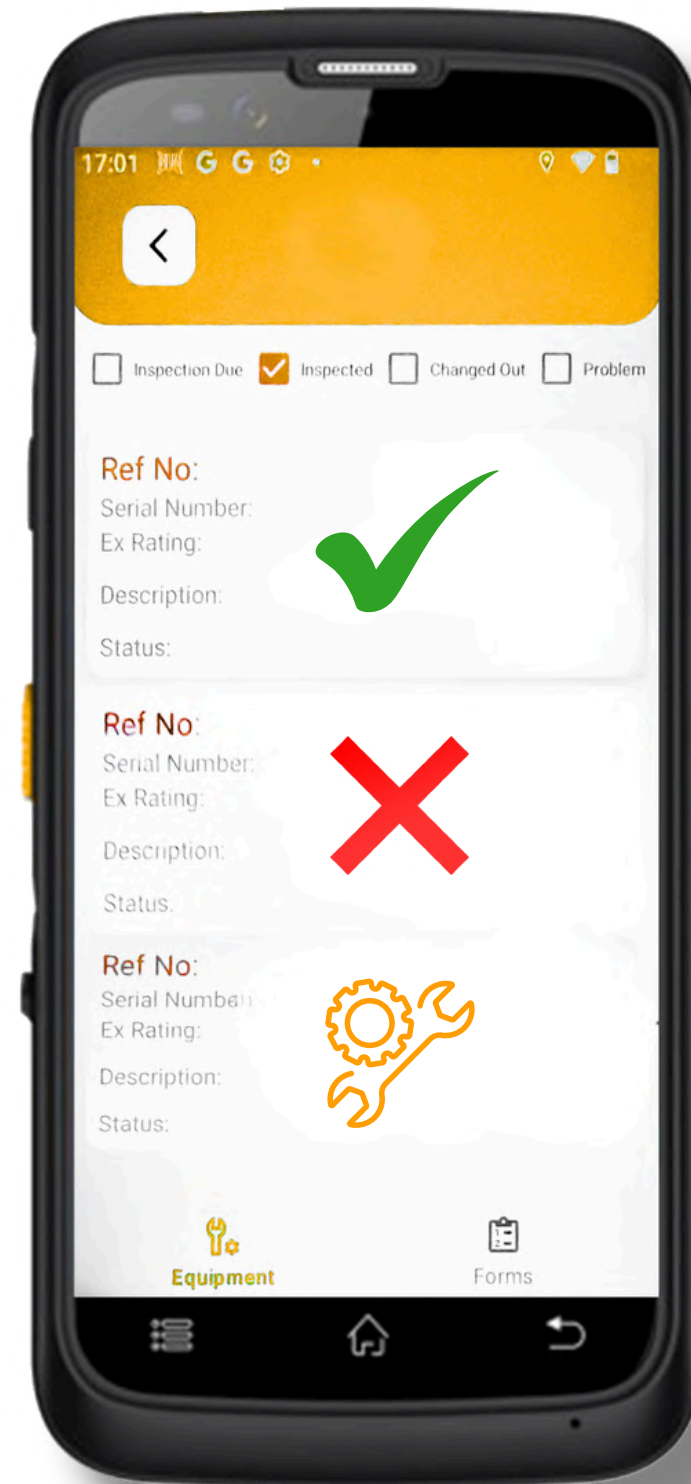

The image shows a smartphone screen displaying the 'Inspection Form' in the INSPECT X app. The status bar at the top shows the time 08:53 and various icons. The app header is orange with a back arrow and the title 'Inspection Form'. The form content includes: 'Inspection Grade: Visual', a question 'There are no unauthorised modifications?' with 'Yes' (selected) and 'No' radio buttons, a 'Comment (Optional)' text field, and a large empty area for notes. At the bottom, there is a progress bar showing '4 of 8' and two orange buttons labeled 'PREVIOUS' and 'NEXT'. The phone's home indicator bar is visible at the very bottom.

- 01** Answer all inspection questions directly in the app.
- 02** Follow guided prompts to ensure accuracy and completeness.
- 03** Mark issues where necessary and provide additional notes if required.
- 04** A “No” answer requires a compulsory comment in order to proceed

STEP 6

REVIEW & SUBMIT INSPECTION RESULTS

AFTER YOUR PROMPTS HAVE BEEN
ANSWERED, AN OUTCOME
WILL BE DETERMINED

- 01 Inspections result in one of three outcomes: Pass, Repaired, or Defect.
- 02 A **Pass** means all checks were satisfactory.
- 03 **Repaired** status occurs when defected equipment has been repaired and re-inspected and passed the inspection.
- 04 A **Defect** highlights non-compliance or an issue requiring attention, enabling managers to take immediate corrective action.

STEP 7

SYNC & STORE DATA SECURELY

THIS CAN BE DONE ON YOUR QR
CODE SCANNING DEVICE

- 01** Inspection data is saved locally and uploaded to the cloud when an internet connection is available.
- 02** Managers can review compliance status, generate reports, and track inspection history via the portal.

HOW TO USE INSPECT X MANAGER PORTAL

**EFFICIENTLY OVERSEE INSPECTION
STATUS THROUGH THE MANAGEMENT
WEB-BASED PORTAL**

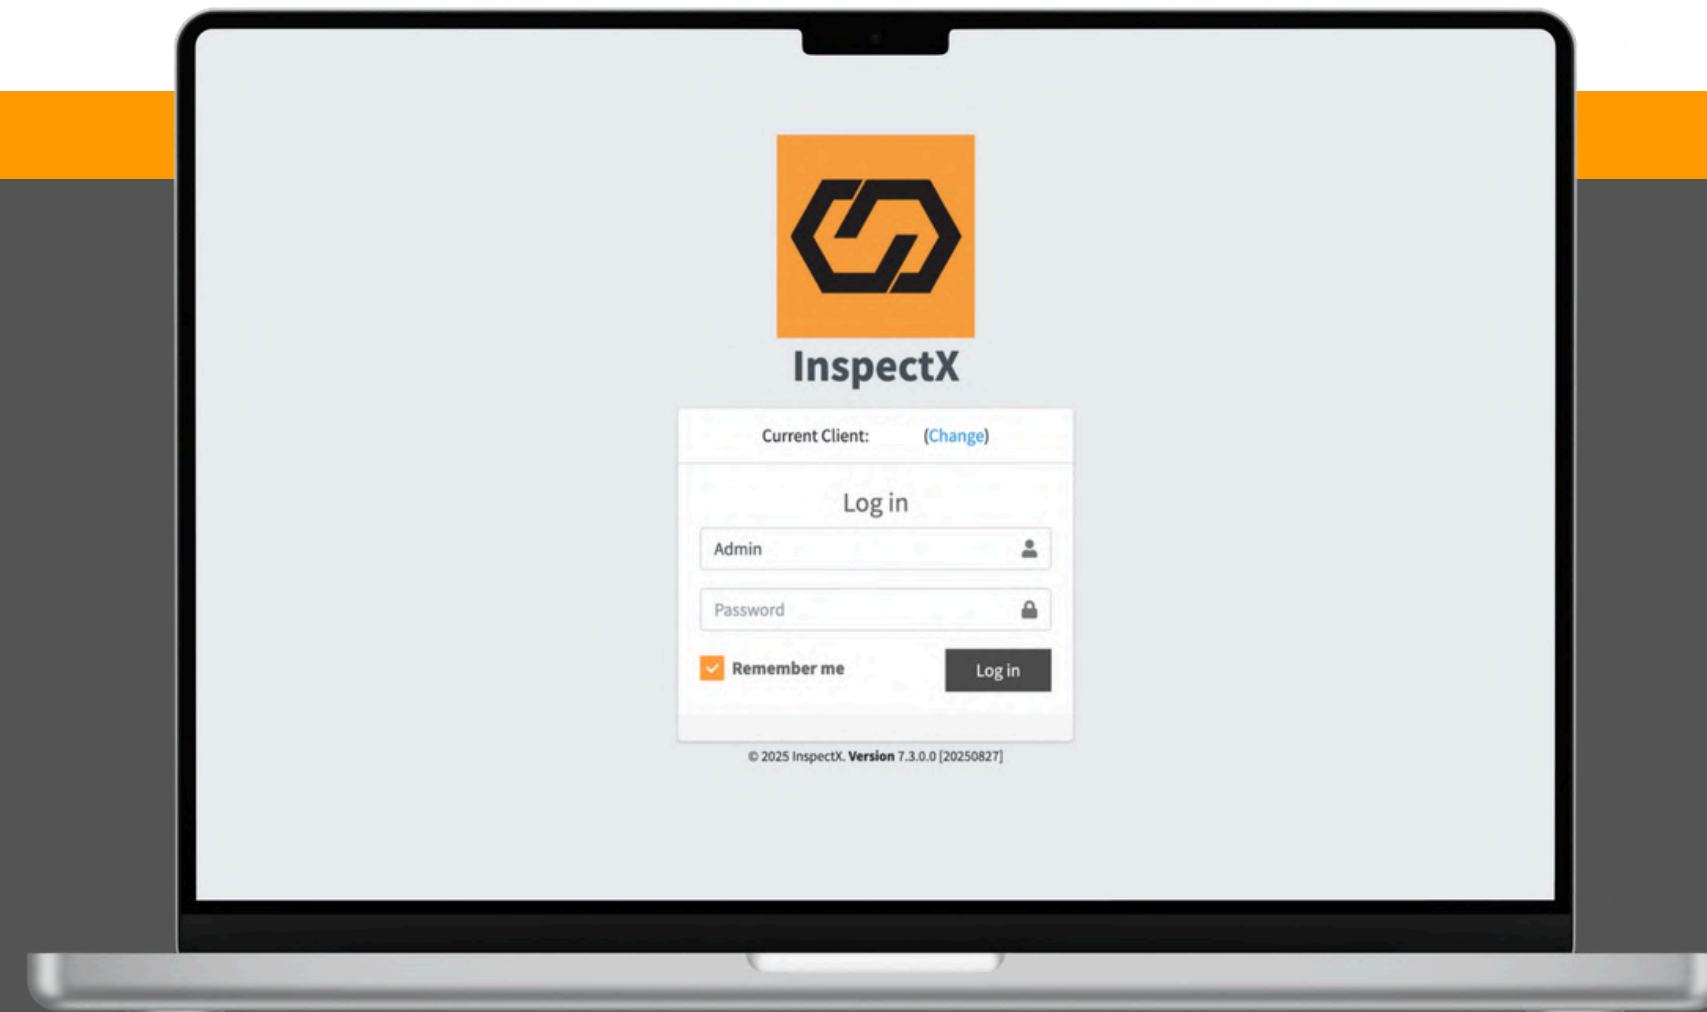

MANAGER PORTAL

LOGIN TO YOUR ACCOUNT

**ROBUST SECURITY ENSURING AN
EFFICIENT INSPECTION PROCESS**

The Inspect X Login Page not only provides robust security but also sets the stage for a personalized, efficient inspection process. With quick access to essential data and a seamless transition to the main dashboard, users can focus on what matters most—accurate, timely inspections and compliance management.

MANAGER PORTAL

MANAGER DASHBOARD

REAL-TIME NAVIGATION, DYNAMIC
MANAGEMENT OF INSPECTIONS

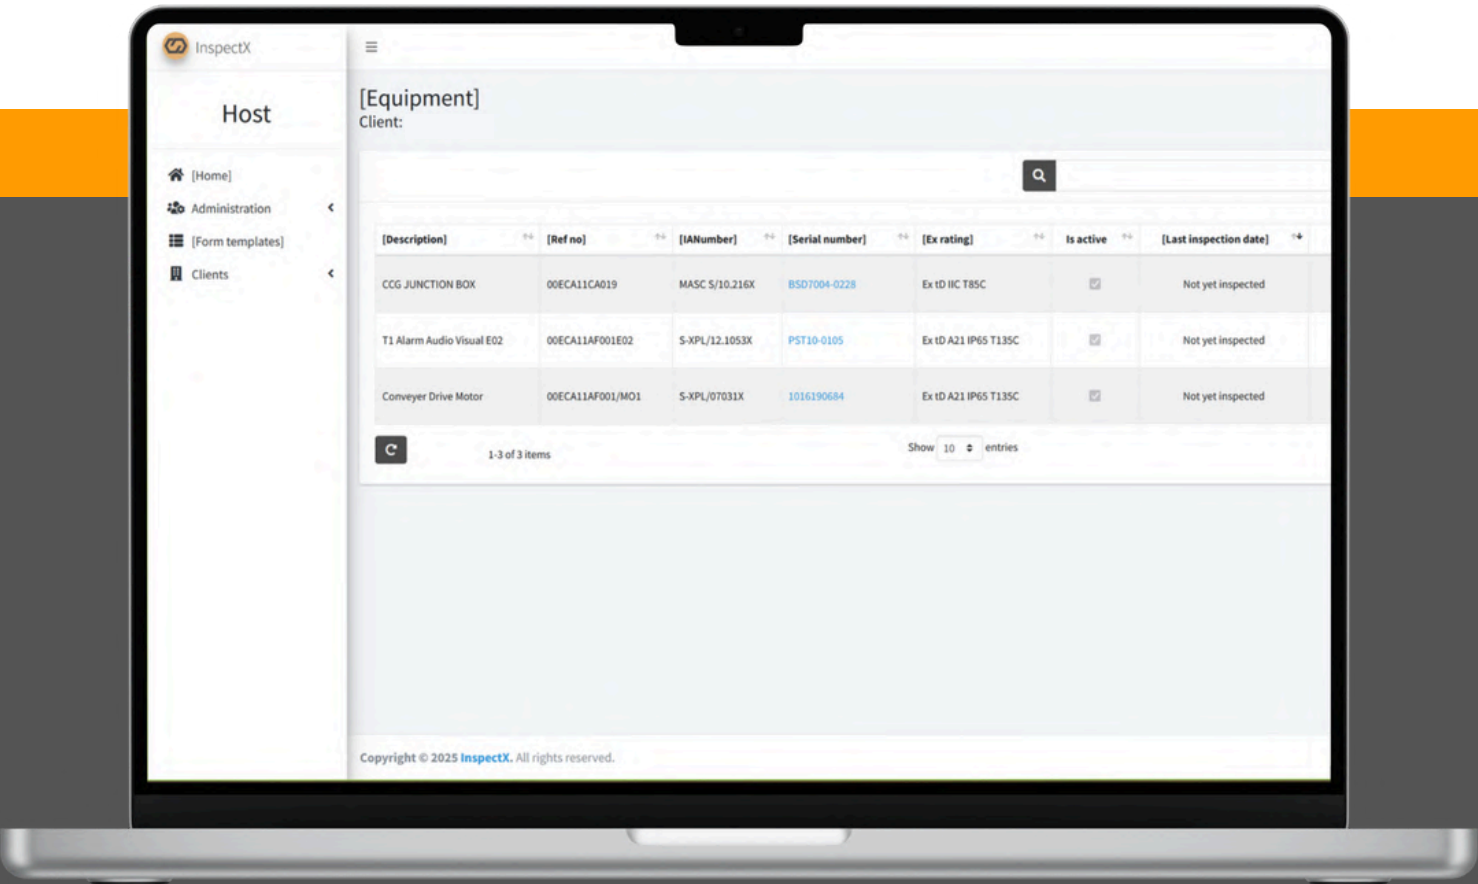

The dashboard provides a dynamic overview of all managed sites, highlighting key metrics such as inspection statuses, compliance rates, and flagged equipment. This ensures managers have instant access to critical data, allowing for informed decisions and proactive issue resolution.

MANAGER PORTAL

EQUIPMENT CHECKLIST

EFFORTLESS OVERSIGHT
UNMATCHED PRECISION

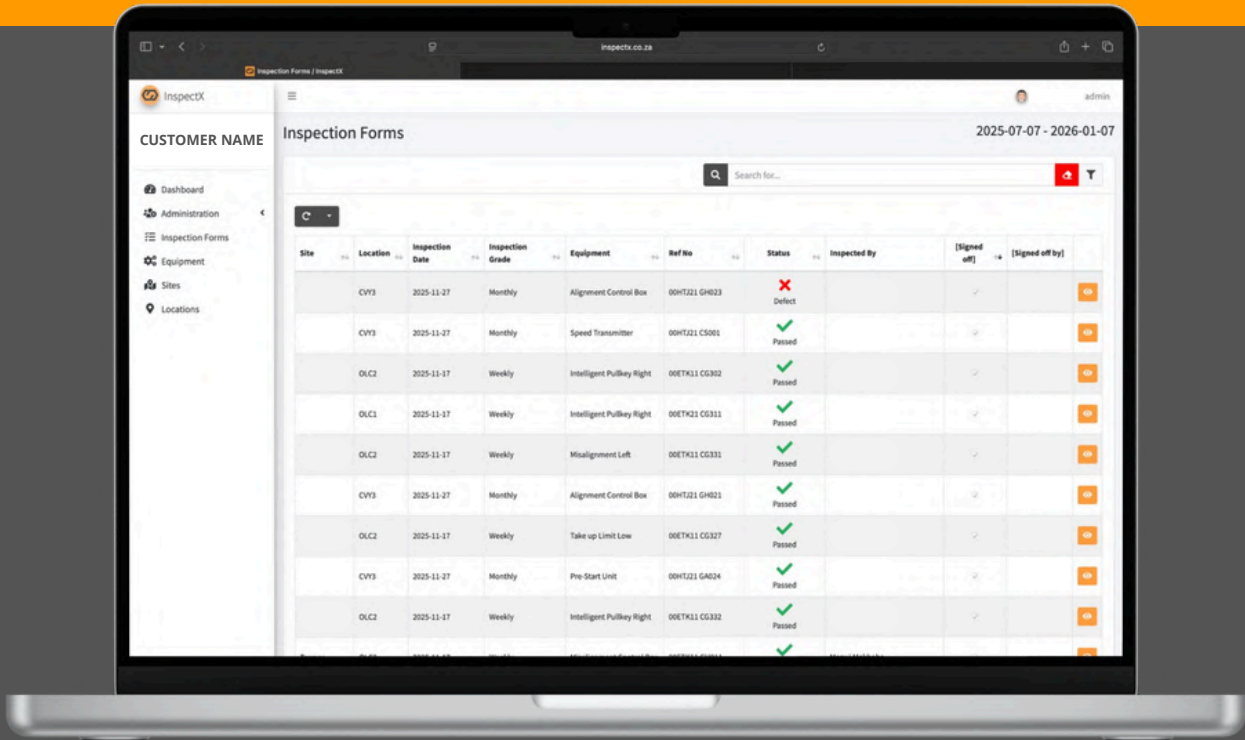

The Inspect X Equipment List transforms how you manage and monitor critical assets. By consolidating all key equipment data into a single, intuitive platform, InspectX ensures that compliance, safety, and efficiency remain at the forefront of your operations. Reporting becomes a breeze through customized reporting, giving you the option to print or save digitally.

Question	Answered	Answer date	Answered by	Comment
1.) Visual Inspections				
1 Is the gland tightened?	Yes	2025-10-23		
2 Is the cable free of any physical damage?	Yes	2025-10-23		
3 Is the seal keeping dust out of the unit?	Yes	2025-10-23		
4 Enclosure sealed and tight (all bolts, screws in place)	Yes	2025-10-23		
5 Is the enclosure according to OEM Specifications?	Yes	2025-10-23		
6 Bolts, cable entry devices and blanking elements are of the correct type and are complete & tight? Physically check	Yes	2025-10-23		
7 Panel closed on inspection?	Yes	2025-10-23		
8 Earthing connections, including any supplementary earthing bonding connections are satisfactory?	Yes	2025-10-23		
9 Condition of roller in good?	No	2025-10-23		not applicable
10 Conditions of roller out good?	No	2025-10-23		not applicable
11 Check Rollers on the arms are running with conveyor?	No	2025-10-23		not applicable

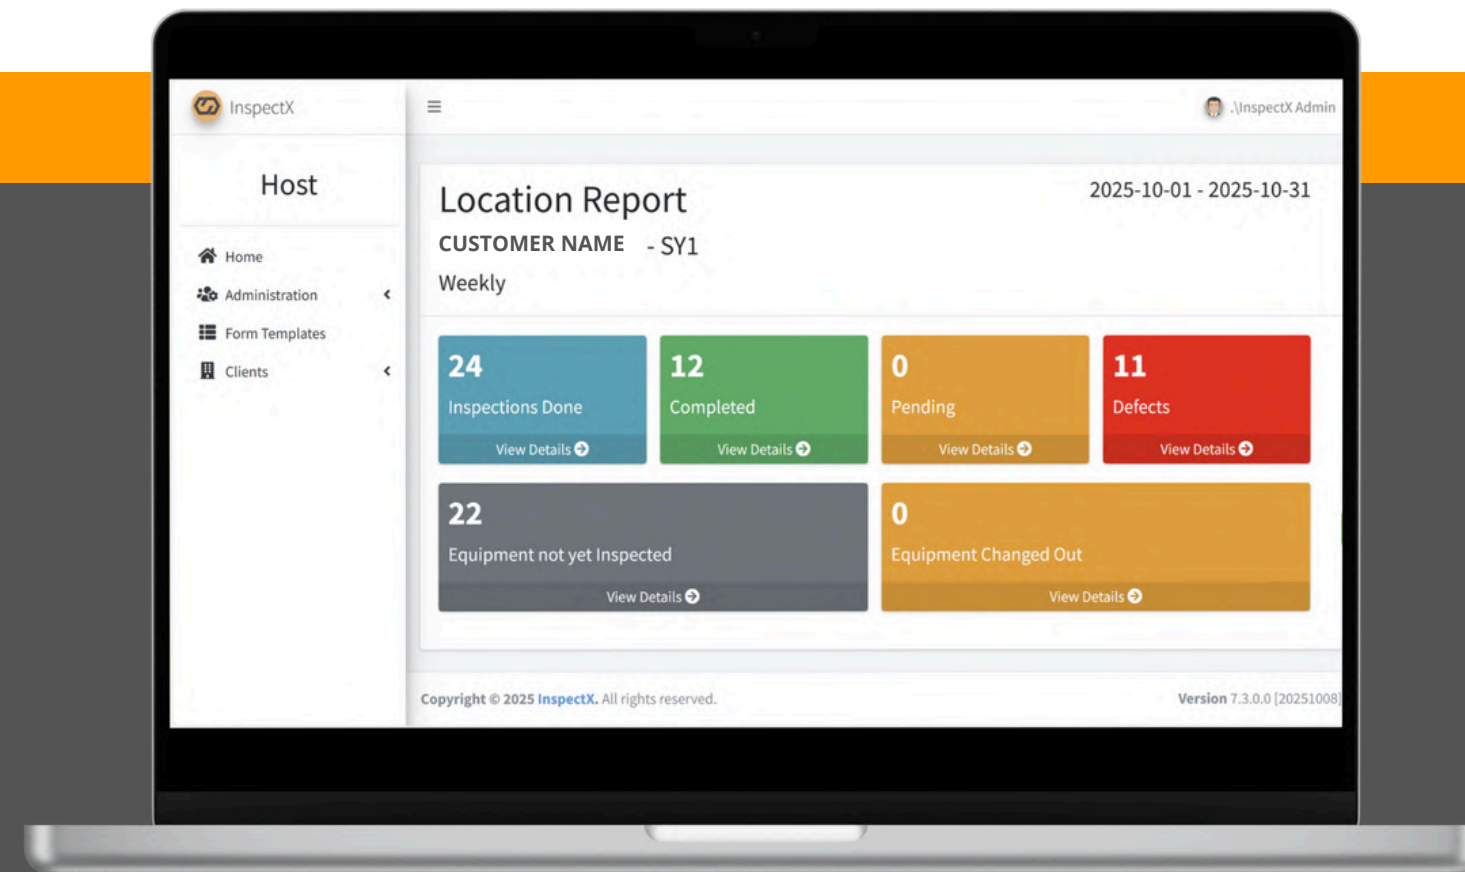

The Inspect X Inspection Forms feature simplifies the management of complex inspection processes by providing a clear, organized view of inspection data. With real-time updates, intuitive navigation, and robust reporting tools, InspectX ensures that compliance, safety, and operational efficiency are always maintained.

MANAGER PORTAL

REPORTING DASHBOARD

**ELEVATED REPORTING
DATA AT YOUR FINGERTIPS**

The InspectX Reporting Dashboard elevates how inspection data is reviewed, analysed, and shared across your operation. By consolidating inspection outcomes, defect statuses, and compliance trends into a clear, visual interface, management gains immediate insight into plant health and performance. Customisable reporting tools allow data to be filtered by site, date range, equipment, or inspection type, making it easy to generate reports for audits, reviews, or maintenance planning. Reports can be downloaded or printed as needed, ensuring critical information is always accessible, accurate, and ready for decision-making.
